About KWG Resources Inc.

With the completion of the purchase from Fancamp, KWG is the Owner of the Black Horse chromite project (part of the "Koper Lake-McFaulds" properties). CCC engaged Cormorant Utilities and Rail-Veyor Technologies for Engineering Proposals for the construction of a transportation and utility corridor within the route and has received those proposals. KWG has also acquired intellectual property interests, including a method for the direct reduction of chromite to metalized iron and chrome using natural gas.
